PETITION UNDER 37 CFR § 1.181
FOR REMOVAL OF THE REQUIREMENT FOR A SEQUENCE LISTING

Mail Stop PCT
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

This Petition is filed to respond to the Notification of Missing Requirements under 35 USC § 371, dated April 16, 2007, with respect to the above-identified application.

The Notice of Missing Requirements states that 1) a Sequence Listing, as required by 37 CFR 1.821(c), 2) a copy of the sequence listing in computer readable form, and 3) an amendment directing entry of the sequence listing into the application should be submitted.

The purpose of this petition is to request that the above Requirement be withdrawn. Applicants have carefully reviewed the description, claims and drawings of the application and have confirmed that there are no disclosures of specific nucleotide or amino acid sequences. Although the use of DNA, RNA, and proteins is disclosed generically, no specific sequences are identified in the application. Therefore, a sequence listing is not necessary.
